SUBJECT : Anti-cigarette policy

Chuck may recall that at a meeting in Europe last Fall a rumour was discussed about the World Bank coming out with an actively anti-cigarette policy in its lending and other activities. Dick Kingham made enquiries at the Bank were he has some contacts but could find nothing.

PM Germany (or perhaps the Verband) has come across the relevant documents and copies are attached herewith. The principal document is the October 4 memo signed by Lewis T. Preston and the summary of a Board discussion of November 26, 1991.

Will you bring this to the attention of whoever you think suitable within PM in New York if they are not already aware.

Regards,
Hugh Brass
